---

There is some price changes in 2013 due to price increases from suppliers – Prices are still kept as reasonable as possible to ensure it is affordable.

The Nana Glen School canteen endeavours to provide a selection of ethical, healthy and nutritious choices of food for your children.

Parents gracious enough to supply cakes and treats for the schools canteen are requested to avoid using artificial colours and flavours as well as nuts in the food they produce as we have many children unable to cope with these in their diet. Thankyou for helping re this!
